

# Build Reports

 Before reading this page, it is highly recommended you read the [builds](#) page.  
More detailed information on reports can be found in the [reports](#) page.

- [What are Reports?](#)
- [Viewing Reports](#)

## What are Reports?

Reports allow you to link a set of reports to a configuration and build. Generally, reports should be used for any reports that are generated during the build process. For more information on reports, see the [Reports](#) page.

## Viewing Reports

Reports for a particular build can be viewed by navigating to the Reports tab while viewing a build.

### Build - 1.0.0.71
