What is the Build Details Page?

The build details page is an overview of a specific build. This page gives you quick access to important build information.

The screenshot displays the Build Details page for build 1.0.0.44. The page is divided into several sections:

- Stages:** A sidebar on the left shows the build stages: **Build** (12s 103ms, Stage Completed) and **test** (33s 690ms, Stage Failed).
- Build - 1.0.0.44:** The main header for the build details.
- Build Details:** A table showing build information:

Property	Value
Started By:	davem@office.vsoft.local
Started	2 minutes ago
Queue Duration	3 seconds
Build Duration	46 seconds
Finished	1 minute ago
Version	1.0.0.44
- Unit Tests:** A summary of test results:

Passed	Failed	Errors	Fixed	New Failures	Shelved
241	0	1	0	0	0
- Code Changes:** A section with a link to [View All](#) and a message: "No Code Changes were found."
- Tags:** A section with a link to [Add/Edit Tags](#) and two tags: [failed](#) and [released](#).
- Pinning:** A section with a link to [Unpin](#) and a message: "Pinning [Unpin]".
- Comments:** A section with links to [View All](#) and [Add Comment](#). It shows a comment by [davem@office.vsoft.local](#) from 823 milliseconds ago, with a [Delete](#) link. The comment text is "Todo: fix the unit test error".

Build Details Page Sections

Details

The details section lists the following useful information regarding the build:

- **Started By:** If this build was started by a [trigger](#) then this property will show which trigger executed the build. If the build was manually started then the user's name is shown.
- **Started:** How long ago the build was started.
- **Queue Duration:** How long the build sat on the queue during execution.
- **Build Duration:** The total time this build took to finish the build.
- **Finished:** How long ago the build finished.
- **Version:** The version number of the build.

Build Details

Started By:	Master_Checkin
Started	56 minutes ago
Queue Duration	1 minute
Build Duration	8 minutes
Finished	47 minutes ago
Version	1.0.0.2028

Unit Tests

The Unit Tests section gives you a quick overview of how many unit tests passed or failed in the build. Check out the [Unit Tests](#) page for more information.

Clicking on a set of unit tests will take you to that list of unit tests. For example, if you click on the number of failed tests, you will be taken to the [unit test build page](#) and you will see all the failed tests.

Unit Tests					
241	0	1	0	0	0
Passed	Failed	Errors	Fixed	New Failures	Shelved

Code Changes

The Code Changes section provides basic information on any code changes that were associated with this build. This section only shows who made the checkin, which repository the changeset is attached to and the checkin comment. A more detailed code changes report can be found on the [Changes](#) page.

Code Changes [\[View All\]](#)

 Dave McConnell	CT_Source	1277335b58ca548cc34478923a7bc42bb80beacd
Merge with h-minorUIFixes		
 Vincent Parrett	CT_Binaries	64922dc172bd13a4f95aca192279f8d93475920f
Merge		

Tags

The tags section allows users to 'tag' a build. By tagging a build you can group builds together into categories. A full description of tags can be found in the [Builds](#) page.

Note that the Tags section will not be shown until the build has finished.

Tags [\[Add/Edit Tags\]](#)

- failed
- released

Pinning Builds

A pinned build denotes a build to be a special build. Note that pinned builds will not be cleaned up by [Cleanup](#). A full description of pins can be found in the [Builds](#) page.

Note that the Pinning section will not be shown until the build has finished.
