Help

### Name

A friendly name for this action (will be displayed in the [actions workflow area](#)).

### Enabled

Determines if this action will be run within the relevant stage.

### Path

Enter the full path and directory you want created. Directories in the path that don't exist will be created.

### Fail if directory exists

If the final directory being created exists then the action will fail.

### Ignore warnings

If this is ticked, any warnings logged will not mark the action with a warning status.
