

# Comment Action

Comment Actions provide a way to place descriptive text inside action lists.

Description	Enabled	Ignore Failure	Status
*****	<input checked="" type="checkbox"/>		
* A Heading Made With Comments *	<input checked="" type="checkbox"/>		
*****	<input checked="" type="checkbox"/>		
Enhanced Prompt for Variables [ - ValueA,ValueB ]	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
▲ If [%ValueA%] = [Gamma]	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
You chose "Gamma" for Value A	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
▲ Else	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Beep [ Asterisk ]	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
▲ If [%valueB%] <> []	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
You entered %ValueA% for A, and %ValueB% for B!	<input checked="" type="checkbox"/>	<input type="checkbox"/>	

Comments do not get executed at run time and do not have script events.

[Action Groups](#) can also be used to make your build easy to understand.
