

Send ICQ Message Action

This action enables you to send ICQ messages.

Send ICQ Message

The image shows a 'Send ICQ Message' dialog box with a dark theme. It has three tabs: 'General', 'Runtime', and 'Send ICQ Message', with the last one being active. The 'Login info' section includes fields for 'ICQ number' (29357420345), 'Password' (masked with dots), 'ICQ login server' (login.icq.com), and 'Server port' (5190). There is a green flower icon in the top right of this section. The 'ICQ Message' section has a 'To' field with a list of numbers (902438289034, 208493890234, 234812890232) and a 'Send SMSs to' radio button. A 'Message' text area contains the text 'Project Build Status: %Project% Built Successfully!'. At the bottom are 'OK', 'Cancel', and 'Help' buttons.

ICQ Message

Messages can be sent to either ICQ numbers or SMS phone numbers (for SMS, the target phone number will need to be connected to an ICQ-supported network.) Put each new phone or ICQ number on a new line.
