

# Delete Website Action - [IIS 7]

The Delete Website (IIS 7) action enables you to delete an existing website.

This action only requires that you specify the existing website to delete using the [common website options](#) tab.

## Server

The screenshot shows the 'Delete Website (IIS 7)' dialog box with the 'Server' tab selected. The dialog has four tabs: 'General', 'Runtime', 'Server', and 'Website Options'. The 'Server' tab contains two sections: 'IIS server (IIS 7)' and 'Credentials (IIS 7)'. The 'IIS server' section has two radio buttons: 'Use the hostname specified in the global IIS options.' (selected) and 'Provide the hostname of the IIS server.' Below the second radio button is a 'Hostname:' label and a text input field. A note below the input field says 'Leave blank to connect to the local machine.' The 'Credentials' section has two radio buttons: 'Use the credentials specified in the global IIS options.' (selected) and 'Provide the credentials to the IIS server.' Below the second radio button are 'Username:' and 'Password:' labels, each followed by a text input field. A note below the 'Username' input field says 'Leave blank to use the credentials of the logged in user.' At the bottom of the dialog are three buttons: 'OK', 'Cancel', and 'Help'.

**Delete Website (IIS 7)**

General Runtime **Server** Website Options

**IIS server (IIS 7)**

☒ Use the hostname specified in the global IIS options.  
☐ Provide the hostname of the IIS server.

Hostname:

Leave blank to connect to the local machine.

**Credentials (IIS 7)**
