

# File Contents Iterator Action

The File Contents Iterator action enables you to iterate over each line of a text a file

For general information on iterators, see the [CSV Field Iterator](#) action.

## Details

The screenshot shows the 'File Contents Iterator' dialog box with the 'Details' tab selected. The 'Filename' field contains '%L\_File%' and has a file icon to its right. The 'Options' section has a 'Variable' dropdown menu set to 'L\_Command'. At the bottom are 'OK', 'Cancel', and 'Help' buttons.
