

Save Variables To INI File Action

The Save Variables to INI File Action enables you to save a set of FinalBuilder variables to an [INI file](#).

Details

INI File

Specify which INI file the variables will be written to.

Variables

Decide which variables will be written to the file. The variables will be written in the form: <variable name>=<variable value>.

Save Options

Section

Specify the section in the INI file to write the variables to

Erase Section before saving

This will erase only the specified Section of the INI file. All values will be erased before the new values are written.
