Borland Starteam Actions

These Actions support Borland StarTeam 5.2.x or higher. They provide an easy to use wrapper around the StarTeam command line too. Before using these actions you need to check that the path to the StarTeam command line tool is set in the FinalBuilder Options Dialog. FinalBuilder will attempt to find the path automatically however it is not always possible (depends on your installation).

? Unknown Attachment

You can also set defaults which will be used for the StarTeam actions in your projects, you can override the defaults if needed in the individual Actions.
