

# Save Variables To INI File Action

The Save Variables to INI File Action enables you to save a set of FinalBuilder variables to an [INI file](#).

## Details

### INI File

Specify which INI file the variables will be written to.

### Variables

Decide which variables will be written to the file. The variables will be written in the form: <variable name>=<variable value>.

### Save Options

## Section

Specify the section in the INI file to write the variables to

### Erase Section before saving

This will erase only the specified Section of the INI file. All values will be erased before the new values are written.
