

# Inc\_Robocopy\_Exclude

## Exclude

The Exclude page allows you to specify conditions to exclude files from the Robocopy operation.

The image shows the Robocopy Exclude dialog box. It has a title bar 'Robocopy' with a close button. Below the title bar is a tabbed interface with tabs: General, Runtime, Settings, Options, Include, Exclude (selected), Include Files, and Exclude Files. The 'Exclude' tab is active, showing two sections: 'Exclude files with attributes' and 'Other Exclusions'. The 'Exclude files with attributes' section has a list of attributes with checkboxes: Read only (checked), System, Not content indexed, Archive, Hidden, Temporary, Encrypted, Compressed, and Offline. The 'Other Exclusions' section has several options: Exclude junction points, Exclude files tagged as 'Older', Exclude files tagged as 'Changed', Exclude files and directories tagged as 'Extra', Exclude files tagged as 'Newer', Exclude files and directories tagged as 'Lonely', Exclude files larger than: 1 bytes, Exclude files smaller than: 1 bytes, Exclude with last modified date older than: 1 days, Exclude with last modified date newer than: 1 days, Exclude with last access date older than: 1 days, and Exclude with last access date newer than: 1 days. At the bottom are buttons for OK, Cancel, and Help.

### Exclude files with attributes

Exclude files from the Robocopy operation which have the selected attributes.

Read only

System

Not content indexed

Archived

Hidden

Temporary

Encrypted

Compressed

Offline

### Other exclusions

### **Exclude Junction Points**

Self explanatory.

### **Exclude files tagged as "Older"**

Exclude files that exist in both the source and destination where the source file is older than the destination file.

### **Exclude files tagged as "Changed"**

Exclude files that exist in both the source and destination where the timestamps match but the file sizes are different.

### **Exclude files tagged as "Extra"**

Exclude files that exist in the destination but do not exist in the source directory.

### **Exclude files tagged as "Newer"**

Exclude files that exist in both the source and destination where the source file is newer than the destination file.

### **Exclude files tagged as "Lonely"**

Exclude files that exist in the source but not in the destination.

### **Exclude files larger than X bytes**

Self explanatory.

### **Exclude files smaller than X bytes**

Self explanatory.

### **Exclude with Last Modified Date older than**

Self explanatory.

### **Exclude with Last Modified Date newer than**

Self explanatory.

### **Exclude with Last Access Date older than**

Self explanatory.

### **Exclude with Last Access Date newer than**

Self explanatory.
