

# PDF Merge Files Action

[Automise Professional Edition]

The PDF Merge Files action will merge two PDF files into a new single PDF File.

## Merge Options

The screenshot shows the 'PDF Merge Files' dialog box with the 'Merge Options' tab selected. The dialog has a dark theme and a red border. It contains several sections: 'PDF files to merge' with two file paths, 'Output file' with one path, and 'Options' with three checkboxes. The 'File 1' path is highlighted with a red box. The 'OK' button is also highlighted with a red box.

**PDF Merge Files**

General Runtime **Merge Options**

**PDF files to merge**
