

Stack or Queue Get Count Action

[Automise Professional Edition]

The Stack/Queue Get Count action is used to get the amount of items that is currently on the list.

Get Count

Stack/Queue get Count

General Runtime **Get Count**

 **Stack/Queue name** 

 **Get count in variable**

OK Cancel Help

Stack/Queue name

Select the name of the list which you want to get the count of items in. If there aren't any items in this list, you need to use the [Stack or Queue Define Action](#) to create a new list.

Get Count in Variable

Specify the variable to set the count to
