

Timeline

 Before reading this page, it is highly recommended you read the [builds](#) page.

What is the Timeline?

The build timeline shows every state the build went through during the build. Included in this list is any important messages that were generated during the build. The timeline also shows how long the build was in a particular state which can be handy for debugging purposes.

Build - 1.0.0.51

DETAILS	LOG	UNIT TESTS (0)	ARTIFACTS (2)	CHANGES (2)	REPORTS	ISSUES (1)	TIMELINE	COMMENTS (0)
Timeline								
State	When	Duration	Message					
Build completed	57 minutes ago							
Stage executing	57 minutes ago	1 second	Stage done on agent 'lancer'.					
Stage executing	57 minutes ago	163 milliseconds	Syncing workspace from agent 'lancer' to server					
Stage executing	57 minutes ago	1 second	Executing stage on agent lancer					
Stage initialising	57 minutes ago	1 second	Initialising workspace on agent 'lancer'					
Stage initialising	57 minutes ago	608 milliseconds	Sending stage 'Build' to agent 'Build'					
Stage initialising	57 minutes ago	1 second	Initialising Stage...					
Stage ready	57 minutes ago	383 milliseconds	Agent 'lancer' reserved and license allocated for stage 'Build'					
Stage awaiting agent	57 minutes ago	1 second	Allocating agent					
Build started	57 minutes ago	44 milliseconds	Build started					
Build starting	57 minutes ago	554 milliseconds						
Build queued	57 minutes ago	88 milliseconds	Starting build.					
Build queued	57 minutes ago	362 milliseconds	Configuration conditions met					
Build queued	57 minutes ago	18 milliseconds	Checking configuration conditions.					
Build queued	57 minutes ago	29 milliseconds	Checking configuration discard conditions					
Build queued	57 minutes ago	18 seconds						
Build initialising	57 minutes ago	201 milliseconds	Queueing Build					
Build initialising	57 minutes ago	84 milliseconds	Creating build Stages.					
Build initialising	57 minutes ago	45 milliseconds	Creating build log file.					
Build initialising	57 minutes ago	1 second	Initialising build Workspace on Server.					
Build initialising	57 minutes ago	180 milliseconds	Associating Changesets with build.					
Build initialising	57 minutes ago	2 seconds	[Repository Monitor] Waiting for repository 'HGbinaries' to be checked.					
Build initialising	57 minutes ago	134 milliseconds	Waiting for Repositories to be checked
