

Once Off Trigger

 Before reading this page, it is highly recommended you read the [Time Trigger](#) page.

The Once Off trigger will trigger a build at an exact point in time. This trigger will only work once at the specified time and date. If you want to run this trigger again you need to **delete the trigger and re-create it**.

Help

Date & Time

The date time field's value can be changed by typing in the value for the field or using shortcuts. The shortcuts for this field and all other date/time fields in Continua are explained in the [Time Trigger](#) section.
