

Azure

This Azure actions are wrappers for the Azure 2.0 command line. Actions are provided to create and delete all the Azure resources required for deploying [web apps](#) and [function apps](#), and also those required for uploading files to [file](#) or [blob storage](#). If you're having trouble using any of the Azure actions, please refer to the [Azure command line reference](#).

Note that these actions are [Premium Actions](#) and will require at least one paid license.

The Azure actions are categorised by function below.

- [Creation Azure Actions](#)
- [Deletion Azure Actions](#)
- [Miscellaneous Azure Actions](#)
- [Upload & Deploy Azure Actions](#)
